

# OmegaSqua

## Omega 3 + Squalene + Vitamin E

### Nature's Protection For Healthy Body.

Advanced technology and complicated current lifestyle have direct or indirect impact on our health. Environmental pollution (air, water, land), unhealthy dietary habits (high cholesterol, lack of nutrition, etc) are some of the main factors that cause diseases to our health. Unhealthy dietary habits can cause diseases and also affect the body's metabolism. It is important for us to consume supplements that maintain our health and help to prevent diseases.

 OmegaSqua

# K-OmegaSqua

**K-OmegaSqua** is a supplement that provides benefits for our health. **K-OmegaSqua** consists of three materials that help to improve the health of our body.

## Omega 3

Omega 3 (EPA 40%, DHA 30 %) is sourced from Norwegian salmon that is rich in omega 3 by 70% where the EPA is 40% and the DHA is 30%. The function of EPA is to enhance body health. DHA provides nutrition for the body.

## Squalene

Squalene helps to increase oxygen level in the cells and improve the health of skin. It is produced from liver oil of deep sea sharks that live in the Pacific Ocean within 600 - 1000 meters deep where there is no sunlight and the water pressure is very high.

## Vitamin E

Vitamin E is beneficial as an antioxidant that helps to prevent diseases, maintain the moisture of skin and many other benefits.

## The benefits of K-OmegaSqua

- To help to maintain health of skin.
- To improve our immune system.
