

K-Amethyst Crystal Mat

Heat Therapy With Additional Benefits From Nature

Enjoy warm comfort given by K-Amethyst Crystal Mat! It combines natural elements that are beneficial to our body, namely heat, far infrared, amethyst and jasmine, to help us achieve better health through an easy, safe and comfortable way.

What is K-Amethyst Crystal Mat?

K-Amethyst Crystal Mat utilizes the concept of 'heat therapy' that is commonly practiced by people for the sake of wellness. Just like traditional heated stone therapy or hot water bottles, it heats the body up to relieve discomforts such as fatigue, sores, stiffness and so on. The released far infrared could promote metabolism and blood circulation, while the amethyst and scent of jasmine possess calming and soothing properties.

K-Amethyst Crystal Mat

K-Amethyst Crystal Mat offers several wholesome potentials such as:

- Relieves stress and tiredness
- Enhances general health
- Promotes burning of calories and excess fat
- Reduces pain and muscle tension
- Improves sleep quality
- Supports detoxification

K-Amethyst Crystal Mat

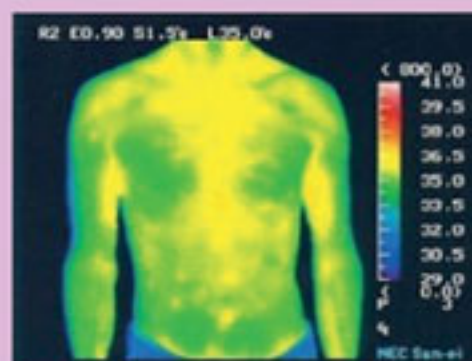

Benefits of Heat Therapy

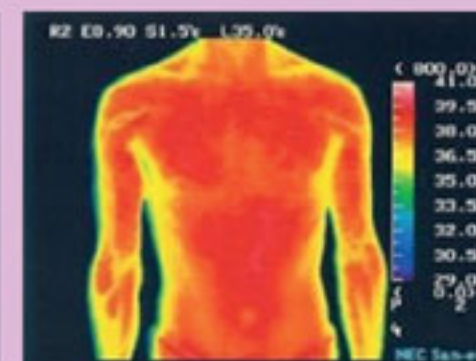

- Promotes blood circulation and metabolism so that oxygen and nutrient supply as well as riddance of waste products from cells become more active.
- Reduces stiffness and increases flexibility of soft tissues such as muscles, joints and nerves.
- Relieves discomforts by stimulating skin receptors to cut down transmission of pain signals to the brain.
- Heat produces warmth that is comforting and relaxing.

Benefits of Far Infrared

- An electromagnetic wave that is good for the body.
- The heating radiation of far infrared makes it one of the safe and effective ways for heat therapy.
- Heats the body deeply and thoroughly to promote metabolism, blood circulation, burning of fat and detoxification.
- It is said to be able to improve certain health issues such as arthritis and hypertension.

Benefits of Amethyst

- Acts as conductor to deliver far infrared rays in a frequency which human body can absorb easily.
- Produces far infrared naturally.
- It is believed to be able to calm mind, emotions, body and soul, as well as promote restful sleep.
- It is said to have stable and balance flow of energy to help us reduce negative energies and achieve inner harmony.

Benefits of Jasmine

- Jasmine is rich in antioxidants that can help fight against free radicals in our body.
- It has been reported to have sedative effects and could calm the activity of autonomic nervous system (ANS).
- The scent of jasmine could help refresh mind and body, reduce stress and negative emotions.

It is easy to use!
