PROTECTOR

K♦eMATTRESS
PROTECTOR

Quality sleep comes only when you can be assured of a deep sleep. Your whole body unwinds while you breathe slowly but deeply, your cerebrum immersing to rest completely. And when you are awake, your fatigue simply vanishes and you feel refreshed and rejuvenated.

* Available in 2 sizes : Single size & King size.

K♦eMATTRESS PROTECTOR

Combining the wholesome goodness of far infrared rays and negative ions, K♦eMattress Protector effectively improves quality of sleep and the functioning of healthy cells and organs. You can now enjoy round-the-clock health enhancing wholesome goodness even when you are sound asleep.

☞ Far Infrared Rays

Dubbed as "The Light of Life", far infrared ray is a natural energy emitted from sunlight that helps to promote blood circulation, improve lymph metabolism, remove body toxic wastes and deodorize unpleasant smell. It also helps to relieve body stress, prevent piles and alleviate constipation.

☞ Negative Ions

Negative ion is an ion with negative charge. It is a natural element that exists in our surroundings, without any form and is invisible to the naked eyes, tasteless and odourless. It is reputable for its health enhancing properties. It enhances blood circulation and exudes a calming effect on the central nervous system. It soothes anxiety, stress and restlessness.

How K♦eMattress Protector Improves Your Sleep Quality

K♦eMattress Protector combines the special health enhancing effects from far infrared rays and negative ions. It is convenient to use, time saving and cost effective. Just unwind yourself to sweet slumber while the infrared energy keeps the ions and free radicals in your body in harmonious balance. Have a peaceful sleep while it rejuvenates your metabolism and maintains a balance pH level in the body, thus giving you healthy cells and higher body immunity. You will wake up fresh and feel revitalized in the morning for the challenges that awaits you in a brand new day.
