

**K-NutriE**  
FRUIT JUICE DRINK BASE BLUEBERRY POWDER WITH BILBERRY EXTRACT

## The Guardian Angel for your eyes!

**K-NutriE** is a powder-based supplement which is extracted from blueberry, cranberry, raspberry, bilberry, pomegranate and lutein. It contains beneficial ingredients that are good for the eyes, especially its excellent antioxidants function that is able to filter the UV light and blue rays against the harmful free radical and protect your eyesight. **K-NutriE** is a supplement suitable for students, office workers, elderly and those who are working on computer which cause burden to eyesight for a long time.

## The Benefits of K-NutriE:

### Protect eyesight

Contains antioxidant properties of zinc, copper, vitamin C and E to protect the eyes area, retina and lens, also helps to improve or prevent glaucoma.

### Relieve tired eyes

Provides vital nutrients to macular area, also provide nutrition to the muscles around the eyes, relieve tired eyes, maintaining the overall health of the eyes.

### Prevent macular degeneration

When harmful UV and blue rays penetrate the eyes, it will produce a large number of free radicals, thus causing cataracts and macular degeneration. Lutein can help filter blue light to avoid damage to the eyesight.

### Reduce the risk of cataracts

Lutein is the only carotenoid that can exist in the crystal protein, and the damage of the free radicals to the ocular crystal protein is the main cause of cataract.

### High Priority for Eyes Protection in Electronic Era!

The development of modern science and technology has gradually worsened the eye aging issue. This is because most of the people are relying heavily on these electronic products. The blue light generated by these electronic products could impair the function of the eyes, while the free radicals generated from the UV ray from the sun will cause eye diseases. Hence, more and more people are suffering from Age-Related Macular Degeneration (AMD).

“ **1 OUT OF 11 PEOPLE** aged 45-85 suffers from Age-Related Macular Degeneration (AMD) ”

### The Benefits of Ingredients in K-NutriE:

#### Lutein

Lutein can be found naturally in green leafy vegetables and fruits. It is a plant pigment, which plays an important role in photosynthesis and protection function. Lutein acts as an antioxidant and filters off harmful rays of blue light. Lutein is present in human eyes, skin, brain, heart and chest and so on, all require lutein to maintain good health. It is especially important to the eyes, while offering great protection to the retina in the macula as well as being the main nutrients responsible for the healthy eyes growth.

#### Blueberry

Anthocyanins in blueberries can relieve eyes fatigue and help to protect your eyesight.

#### Pomegranate

Pomegranate polyphenols and anthocyanins are rich in antioxidants and vitamin C, help in digestion, softening blood vessels, blood pressure, lipid-lowering, cholesterol and other functions.

#### Cranberry

Rich in phytonutrients, it is effective to prevent urinary tract infections.

#### Raspberry

Raspberries are rich in vitamin C, vitamin A, potassium, magnesium and high fiber, help reduce indigestion and constipation problems.

#### Bilberry

Rich in anthocyanosides, bilberry is a natural antioxidant which can enhance the health of microvascular, protecting microvascular from free radical damage, and promote blood circulation in the eyes.
