

# K-CHLOROPHYLL TRANSPARENT SOAP

## Making Every Shower A Wonderful Refreshing Experience

You drink chlorophyll for the health of your body, now you can even use chlorophyll for the health of your skin with **K-Chlorophyll Transparent Soap**. Made with the wholesome goodness of chlorophyll, **K-Chlorophyll Transparent Soap** cleans, revitalizes and moisturizes for softer and healthier skin.

- Goodness of chlorophyll in bar soap form
- Promotes healthy complexion
- Cleans while maintaining skin moisture balance
- Lower pH for extra mildness

### The Unique Green Bar Soap

**K-Chlorophyll Transparent Soap** is made from gentle plant-based fatty acids and natural skin-caring ingredients such as chlorophyll, glycerin, aloe extract and vitamin E, which help provide nourishment and protect the skin from harmful environmental aggressors, keeping it soft, smooth and supple. Its mild formula has lower pH compared to normal soaps, hence suitable for the whole family and daily use.

## The Benefits of Chlorophyll in Skin Care

K-Chlorophyll Transparent Soap contains chlorophyll, which does not only give the clear soap a lovely green color appearance, but also the benefits of chlorophyll in maintaining healthy and youthful looking skin.

Chlorophyll provides the skin with essential nutrients including vitamins and minerals, and is packed with antioxidants to help neutralize free radicals that contribute to skin aging.

Besides, chlorophyll has anti-bacterial and anti-inflammatory properties, meaning it helps soothe and reduce infections that lead to breakouts, as well as promote healing of wounds. Above all, it is very safe, non-irritating and suitable for all skin types.

K-Chlorophyll Transparent Soap is also enriched with glycerin, aloe extract and vitamin E to help calm and moisturize the skin.

- **Glycerin** - An effective moisturizer that helps protect the skin's barrier function, prevent dryness, improve skin health, making it soft and supple
- **Aloe Barbadensis** - This natural skin soother is moisture-rich and rejuvenating. It also possesses anti-inflammatory, anti-oxidative and anti-bacterial qualities
- **Vitamin E** - Protects the skin from sun damage as well as the harmful free radicals, helps the skin retain its natural moisture and improves complexion

### Directions of Use

Wet the soap with water, lather and apply onto skin. Rinse thoroughly with water.

### Extra Tips: How to make a soap last longer?

Let the soap dry in between uses. Place the soap in a proper soap dish that allows for drainage, avoid letting the soap come into contact with water, or left soaking in soap tray. This would prevent the soap from dissolving too fast and make it longer lasting.
