K-ENERGY TOUCH

UIE (Universe Induced Energy) is a useful energy, which originates from the first layer of the sun. The use of this UIE has benefited mankind in various ways, such as helping to maintain the quality of health and life in general. The latest technology to infuse such energy into an unknitted cloth, sealed in a gold-coloured aluminium foil, which is covered by a plastic material. **K-Energy Touch** helps to increase the quality of health.

K-ENERGY STICKER

By harnessing the useful rays of the Universe Induced Energy (UIE), the **K-Energy Sticker** can be conveniently used on any part of the electrical appliances. For instance, the **K-Energy Sticker** is able to help minimizes harmful electromagnetic waves emitted by mobile phones, televisions, computers, microwaves etc which is harmful to the human body. Not only that, it can also help to prolong an engine's lifespan, it helps to reduce fuel consumption, improves lubrication, lessens piston friction, cleans carbon deposits besides improving car's performance and minimizes air pollution.
