K-769 ENERGY BOOSTER

Design Concept of K-769 Energy Booster :

K-769 Energy Booster applies the "shape and mindset" elements which makes its design unique, elegant and classic.

"Shape" Element:

The design of the centre part of **K-769 Energy Booster** is a circle that represents perfection and continuous energy. It helps regulate the hormone system and maintain the body functions as well as conserves a healthy and well-organized life. Besides that, **K-769 Energy Booster** uses the 769 symbol which has amazing mind power in numerology.

"Mindset" Element:

The theory of success always emphasizes on the mindset of "believing first before seeing". Many successful people have trust in themselves that they can achieve success although they have yet to witness any achievement, whereas normal individuals only believe in something after seeing it happens. Strong and powerful mindset encourages extraordinary inner potentials within someone and activates unlimited possibilities which can produce an unbelievable force. Subconsciousness not only helps in your career, it also helps to overcome psychological obstructions and solving psychological and physical problems. When energy combines with this mindset completely, success will then be within your reach.
